ARTICLE VI Board of Adjustment and Variances

Sec. 16-61. Variances.

Planning & Zoning is empowered to grant variances from the regulations and provisions of this Chapter. A variance, if granted, will constitute a change in the zoning provisions of this Chapter as distinct from a conditional use grant which allows for inclusion within the zones established by this Chapter certain anticipated uses of a unique nature or character justified by temporary conditions. Variances may be considered where, due to special conditions, a literal enforcement of the provisions of this Chapter would result in unnecessary hardship. Variances will not be granted contrary to the public interest and will only be considered when the spirit of this Chapter can be observed and public safety and welfare secured.

Sec. 16-62. Variance procedure.

1. Application. An application for a variance shall be submitted to the Town Clerk in writing, together with the required application fee.
2. Determination by Planning & Zoning. Planning & Zoning shall give notice and hold a public hearing on all variance applications in accordance with Section 16-35 of this Code. Planning & Zoning shall consider the application for variance at a public meeting.
3. Final approval by the Board of Trustees shall be approved the regularly scheduled monthly Board of Trustees meeting.

Sec. 16-63. Conditions on granting variances.

In granting any variance, Planning & Zoning may impose such conditions and requirements with respect to location, construction, maintenance and operation in addition to any which may be stipulated by this Chapter as deemed necessary for the protection of the adjacent properties and the public interest and welfare. Violation of such conditions and requirements, when made a part of the terms under which the variance is granted, shall be deemed a violation of this Code.

Sec. 16-64. Planning & Zoning Commission authorized to approve minor modifications.

1. Purpose and intent. The purpose and intent of this Section is to allow Planning & Zoning, or its Designee, to grant minor modifications up to a maximum of ten percent (10%) from zoning standards in cases where a deviation there from exists relative to existing structures. Relief under this Section shall not be available for the following:
 - a. Any application for a new development or proposed construction.
 - b. A building permit application.
 - c. A plot plan application.
 - d. An improvement location certificate.
 - e. Any minor modification that would result in any of the following:
 - i. An increase in permitted maximum development density or intensity.
 - ii. A change in permitted uses or mix of uses.

- iii. An increase in the building height of principal structures.
 - iv. A decrease in the amount of required open space or landscaping.
- 2. Application. The applicant shall submit to the Designee a variance application, together with such supporting documentation as the Designee may require, and a review fee, the amount of which shall be set from time to time by resolution of the Board of Trustees.
- 3. Appeal. The Designee shall review the application and initially determine whether or not the application qualifies the applicant for relief under this Section. In the event the Designee determines that the application should be denied, appeal of the Designee's decision to Planning & Zoning shall be in accordance with the provisions of this Code.
- 4. Approval criteria. Upon complete submission of the application as aforesaid and approval thereof by Planning & Zoning, the Designee shall grant the modification unless it is in conflict with either the goals of the Comprehensive Plan or the purposes of the zoning code.
- 5. Effect of approval. The Designee shall state on the zoning certificate, and on all affected plans or plats, the nature of any minor modification and reason for approval thereof. The Designee shall also sign, date and, if applicable, record all such documentation.

Secs. 16-65--16-80. Reserved.

ARTICLE VII Conditional Use Grants

Sec. 16-81. Intent of conditional use grants.

The conditional use classification is intended to provide the inclusion within a zone of uses of such unique nature or character or uses which are so dependent upon specific contemporary conditions that predetermination of permissibility by right, or the detailing within the chapter of specific standards, requirements or conditions necessary or appropriate to such permissibility, is not practical, but which may be permitted in the zone where listed, subject to conditions and requirements as hereinafter specified.

Sec. 16-82. Approval of conditional use grants.

Subject to final approval and acceptance by the Board of Trustees, uses listed as conditional uses may be permitted upon a petition to Planning & Zoning for a conditional use grant and subject to approval by the Board of Trustees. Planning & Zoning shall base its determination on general considerations as to the effect of such permit on the health, safety, welfare and economic prosperity of the Town and specifically on the effect of such use upon the immediate neighborhood in which it would be located, including the considerations listed in Section 16-85 below.

Sec. 16-83. Application to existing uses.

A use which existed lawfully on a lot at the time said lot was placed in a zone where such use would be permitted only upon approval of a conditional use grant shall automatically be granted conditional use status. In such case, the grant of conditional use status shall be based upon the existing conditions at that time, and any expansion or change in use shall require changing of the conditional use grant. Petition may be made at any time for expansion or other change of the conditional use grant, and such petition shall not prejudice the existing use as herein authorized.

Sec. 16-84. Termination of conditional uses.

Where a permitted conditional use does not continue in conformity with the conditions of the original approval or where a use is no longer compatible with the surrounding area, the conditional use grant may be terminated by the Board of Trustees upon referral to the Board and public hearing thereon. Such use shall thereafter be classified as a legal nonconforming use; except that, where the action is due to failure to comply with the conditions of the conditional use grant, the Board of Trustees may require complete termination of the use.

Sec. 16-85. Standards and requirements for conditional use grants.

1. Approval of a conditional use grant shall be based on the evaluation of such factors as the following:
 - a. The character and quality of the area in which the use will be located.

- b. The physical appearance of the use, including suitability of architectural and landscaping treatment.
 - c. Appropriate location of the building or buildings on the lot.
 - d. Adequate provision of parking, loading and circulation facilities.
 - e. Potential effect of the use upon off-site vehicular and pedestrian traffic circulation, with particular reference to potential traffic congestion.
 - f. Potential effect of the use on storm drainage in the area.
 - g. Adequacy of planting screens where necessary.
 - h. Provision of operational controls where necessary to avoid hazardous conditions or eliminate potential air or water pollutants or other noxious influences.
 - i. The general compatibility of the proposed use with the area in which it is to be located.
2. Conformity with regulations. Except as may be specifically otherwise provided, any conditional use shall conform to the lot size, building location, building size, open space and height limitation regulations.
 3. Accessory uses. Uses and structures accessory to a principal conditional use shall be subject to appropriate regulations in the same manner as herein set forth for the principal conditional use.

Sec. 16-86. Procedure for conditional use grants.

1. Filing. A petition for a conditional use grant shall be submitted in writing and filed with the Town Clerk, who shall promptly refer such petition to the Board of Trustees. Such petition shall be accompanied by building site and operational plans and by such other data and information as necessary for proper evaluation of the request.
2. Hearing. The Board of Trustees shall conduct a study and investigation of the petition and shall give public notice and hold a public hearing thereon as provided in Section 16-35.
3. Decision. Following public hearing, the Board of Trustees shall make a determination and set forth its decision in writing, indicating conditions of approval or if the petition is disapproved, indicating the reasons for disapproval. The determination of the Board of Trustees shall be transmitted forthwith in writing to the Town Clerk, who shall place the item on the agenda for the next regular meeting, at which time the Board of Trustees shall formally approve or disapprove their decision.
4. Recording. When a conditional use grant is approved, such approval shall be appropriately noted on building permits and zoning certificates.
