

N2N Team Meeting Minutes 08252023

Call To Order:

Meeting was called to order at 10:00 am

In Attendance:

Beth Roman
Kris Webb
Cindy Harvey
Gary Harvey

Observers:

Mayor Ott

Approval of Minutes:

Cindy moved to approve the minutes from August 11. Kris seconded. Passed 4-0.

Survey and Potluck:

Kris reported: 9 more surveys have been returned. Twenty people (including us) want to volunteer. Joanne will tally results when she returns. Results seem pretty consistent. Majority of respondents are retired.

Set up for Pot luck will begin 2:00-2:15. It was advertised in Shopper and Florence Reporter. Alternate rain location will be in garage at Town Hall. The Town Bazaar fundraiser will not be held at the pot luck.

Subcommittees:

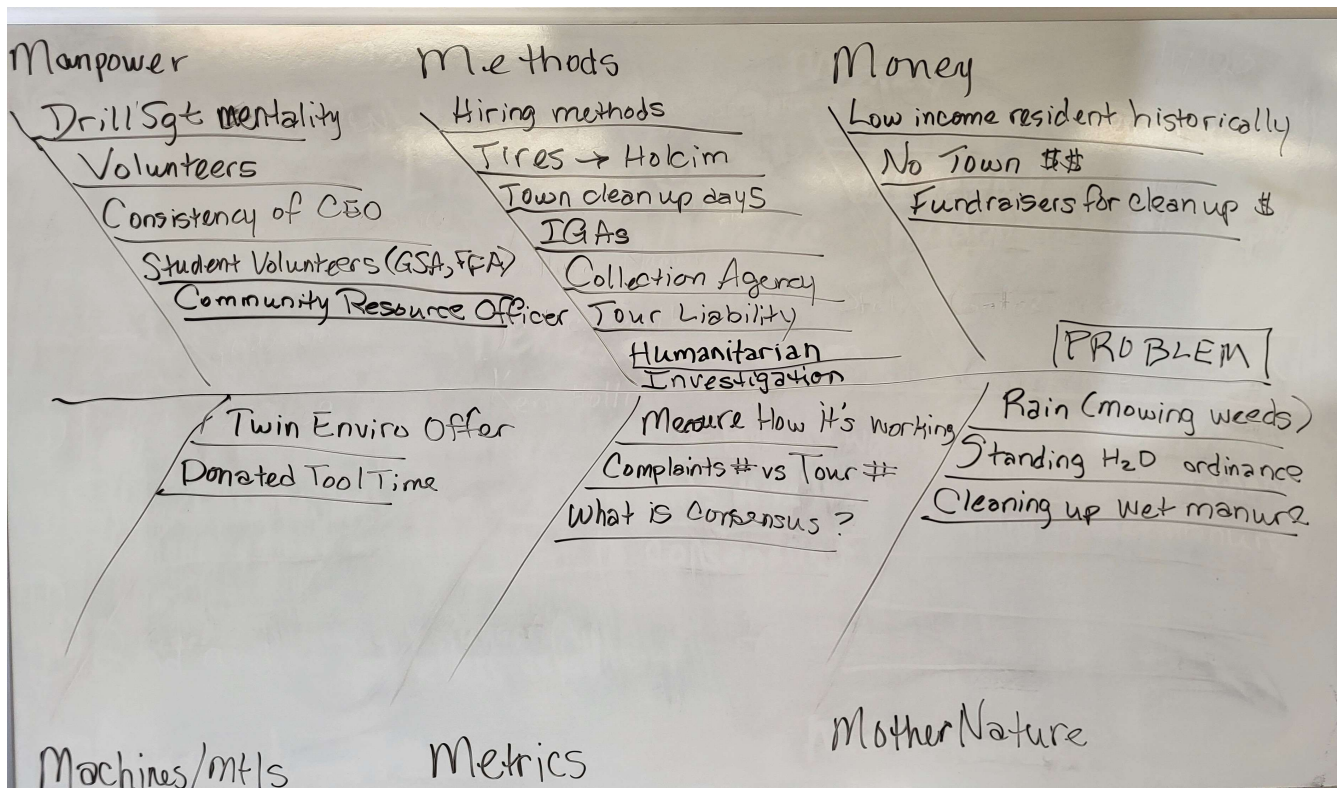

Kris: Other statutory towns like Brookside have simpler, easier to read ordinances. Calhan had nuisances all together in one section of their codes. They have a Police Department.

Kris: Coal Creek and Rockvale allow 1 hooved animal to ½ acre. Calhan allows 1 hooved animal per 10,000 sq. ft. (<1/4 acre). Calhan requires manure to be cleaned up every week, removed from town. Coal Creek and Rockvale require manure clean up every 2 weeks.

Beth: presented highlights from Canon City Police Chief Schick's Homelessness and Code Enforcement talks. See notes attached. The biggest take away is that we cannot criminalize homelessness and drug addiction. The state laws do not allow for successful prosecution. Williamsburg, like all other jurisdictions in the USA, needs to find a humanitarian way to deal with all of its humanitarian problems.

Fishbone Problem Statement:

The following is our working fishbone problem statement. It can be further refined as we move forward. Methods and manpower appear to be the biggest root causes of the problem. These will be the parts of the process we focus on improving. Our problem statement is this: **Lack of compassion for our fellows and disdain for community has resulted in haphazard methods of government that divide citizens rather than unite them.**

Adjournment: Gary moved to adjourn and the meeting was adjourned at 11:00 am.

Next Steps:

1. Ongoing subcommittee reports
2. Fishbone problem statement refinement
3. Solutions session
4. Testing/Experiments
5. Draft Report to Board of Trustees
