

Town of Williamsburg
Williamsburg, Colorado
RESOLUTION 1 OF SERIES 2016

A RESOLUTION FOR TEMPORARY REDUCTION OF NEW WATER TAPS FEES

WHEREAS, it is in the best interest of the home owners of the Town of Williamsburg to add new water taps and add new homes

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE TOWN OF WILLIAMSBURG, COLORADO:

The fee for a new water tap will be adjusted as described in (a) below.

(a) New water tap cost structure:

New tap application fee (non-refundable)	\$25
Minimum regional rate	<u>\$5600</u>
	\$5625
Materials and Labor cost	to be determined

This resolution will remain in effect until rescinded or changed. However a mandatory review to determine continued effectiveness will be required annually beginning one year after passage of this resolution.

An application and acquisition of a new tap would be subject to the following conditions:

1. Under these conditions the tap is considered reserved. The tap is not considered sold until the meter is installed.

2. The cost of the tap would reflect the current cost of materials and labor to install the meter, and the current minimal regional rate.

3. Within 120 days (4 months) after the application fee is paid, the tap must be purchased.

4. After an additional 90 days the tap must be installed.

5. If the tap is not installed within the 90 days after purchase, the tap reverts back to the Town. A refund of 1/2 of the tap cost would be made. The remaining 1/2 would go into the Systems Development fund.

5. Under these conditions, the tap payment would not be made to Florence until the tap is installed.

**In addition, passage of this resolution does not limit or prevent arrangements from being made for special situations.

Be it resolved this 2nd day of May, 2016.

Billy Jack Hawkins, Mayor Pro-Tem

ATTEST:

Lucinda Ricotta Town Clerk
