Subject: **Seeking Volunteers for The Town of Williamsburg's New Pride Code Program**

The Town of Williamsburg's Board of Trustees have approved the development of the "**Pride Program.**"

The Pride Program Explained: Created and initiated by The Town of Silver Cliff Colorado, has proven to be successful in their desire to improve their town. As such, the Town of Williamsburg will follow their lead and develop the same program with modifications to meet the needs of the Town of Williamsburg. The Pride code is simply a set of new codes that align with and augment our current town codes. The big difference is that the Pride Codes are developed by the Pride Code Project Team and later, approved by the Town Board. The Code Enforcement Officer will lead and facilitate this project team on a weekly basis.

Full commitment to attend these meetings weekly for several months is required. Please do not take this commitment lightly, project team meeting attendance must be consistent.

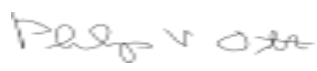

If you are interested in becoming a member of this important project team, please call Tom Hansen, at **719-744-3774**, by **May 1, 2023**.
